This Annual Auction is our primary fund raising activity for the "Date of Colorado Minerals". We recently paid a substantial bill for typing and editing the 1500 page bibliography which is being submitted for the USGS open file. Progress is being made now and committees are working on the maps and the photographs to be included. If you have any input on these subjects please contact: Map committee Pete Modreski, Photo committee Barbara Muntyan.

The treasurer wants to remind you to examine your address label. the date at the top shows how long your dues are paid up to.

A news letter will be mailed in June giving all the details on the August 12-15, 1988 Precious Metals Symposium. Mark your calendars now.
