Friends of Mineralogy - Colorado Chapter
Newsletter No. 17, April 23, 1995

May Auction Meeting: 7:00 p.m. Thursday, May 18, 1995
Denver Museum of Natural History
Cafeteria & VIP room
(enter through employee entrance on the north)

This Auction is our final fund raiser to publish the book "MINERALS OF COLORADO". Bring your donations to this auction early. All specimens are 100% donations. If the specimen does not sell for the minimum price it will be returned to the donor. The doors are open at 6:30 and we would like to have some silent auction tables set up and operating by 7:00. Please have your slips filled out before you come. Additional slips will be available at the check-in station. If you have something for the verbal auction notify the people at the check-in station so it can be placed on the verbal auction table. A sample auction slip is enclosed with instructions how to fill it out.

There will be a cash bar serving wine, beer and soft drinks. Snacks will be furnished by FM and the museum.

The silent auction will run until 8:00 when the verbal auction will take place in the VIP room. When the verbal auction is finished you will have time to make your final rounds of the silent auction tables which will be closed between 9:00 and 9:15. Check out will follow at two stations, one for checks and one for cash. All specimens not sold for the minimum bid will be returned to the donors at a third station.

This should be an exciting event. Come and bring friends for an exciting evening of fun.

Our next meeting is on June 1st. Your next newsletter will have information on the program and the important business that the chapter must vote on.

EVERYONE IS WELCOME
to the
COLORADO MINERAL SOCIETY

SILENT AUCTION
